

Tianle Yang

Website: tlyang.org
Email: tianleya@buffalo.edu

Address: Department of Linguistics, University at Buffalo
LinkedIn: [linkedin.com/in/tianle-yang-4600a02b3](https://www.linkedin.com/in/tianle-yang-4600a02b3)

EDUCATION

2023 - Present	Ph.D. in Linguistics, University at Buffalo SUNY
2023 - 2025	M.S. in Computational Linguistics, University at Buffalo SUNY
2018 - 2022	Bachelor of Information Technology, Australian National University

RESEARCH INTEREST

Acoustic phonetics; Speech processing; Computational linguistics; Language documentation and analysis

HONORS, FUNDING AND AWARDS

2023-28	Fellowship, University at Buffalo (\$23,000 per year)
2024	Conference funding (\$1,000), Graduate Student Association and UB Linguistic Department
2021	Research assistantship (\$1,000), Documenting words and acoustics in Chinese Wu sites

PUBLICATIONS

2026	Chengzhe Sun [†] , Tianle Yang [†] , and Siwei Lyu. "A Survey of AI-generated Voices and Their Detection." APSIPA Transactions on Signal and Information Processing. [in press]
2025	Tianle Yang , Chengzhe Sun, Siwei Lyu, and Phil Rose. "Forensic deepfake audio detection using segmental speech features." Forensic Science International, 379.
2025	Tianle Yang , Chengzhe Sun, Phil Rose, Cassandra L. Jacobs, and Siwei Lyu. "Assessing the Ability of Neural TTS Systems to Model Consonant-Induced Fo Perturbation."
2025	Tianle Yang and Matthew Faytak. "Onset-tone interaction in Mundabli." Proceedings of the Linguistic Society of America.
2024	Matthew Faytak, Mariana Quintana Godoy, and Tianle Yang . "Lingual and epilaryngeal articulation of vowels in Mundabli." ISSP 2024 - 13th International Seminar on Speech Production.
2024	Phil Rose and Tianle Yang . "Diagnosing dominance: Problematic sandhi types in the Chinese Wu dialect of Jinshan." Proceedings of the Linguistic Society of America.
2022	Phil Rose and Tianle Yang . "Modeling Interaction between Tone and Phonation Type in the Northern Wu Dialect of Jinshan." The 18th Australasian International Conference on Speech Science and Technology.
2022	Tianle Yang . "Neural networks with different initialization methods for depression detection."

CONFERENCE ACTIVITY

Conference Presentation and Poster

- 2025 **Tianle Yang**, Han Pham, Yixuan Liu, Atharvya Vikas Jadav, Fred Mailhot, and Cassandra Jacobs. "Evidence for duration as the primary cue to English homophone identity in human and machine-generated speech." Second annual meeting of PHUNY (Phonetics/Phonology in Upstate NY).
- 2025 **Tianle Yang** and Kayla Shames. "fo perturbation and stop place of articulation in Yoruba." Second annual meeting of PHUNY (Phonetics/Phonology in Upstate NY).
- 2025 **Tianle Yang** and Matthew Faytak. "Onset-tone interaction in Mundabli." Linguistic Society of America Annual Meeting. January 9th–12th, Philadelphia, USA.
- 2024 **Tianle Yang**. "Acoustic analysis of Mundabli tones in monosyllabic words." PHUNY (Phonetics/Phonology in Upstate NY). March 9, New York, USA.
- 2024 **Tianle Yang** and Phil Rose. "Left dominant or right dominant? Problematic sandhi types in the Chinese Wu dialect of Jinshan." Linguistic Society of America Annual Meeting. January 4th–7th, New York, USA.
- 2022 Phil Rose and **Tianle Yang**. "Modeling Interaction between Tone and Phonation Type in the Northern Wu Dialect of Jinshan." The 18th Australasian International Conference on Speech Science and Technology. December 13th–16th, Canberra, Australia.

SERVICE

Academic Journal Peer Review

International Journal of Language Education

PROFESSIONAL MEMBERSHIPS

- | | |
|-----------|--|
| 2022–2025 | Linguistics Society of America |
| 2022–2023 | Acoustical Society of America |
| 2022–2023 | International Speech Communication Association |
| 2022–2023 | Australasian Speech Science and Technology Association |

RESEARCH EXPERIENCE

Research Assistant

UB Phonetics Lab, University at Buffalo

Aug 2023 – Jun 2024

Supervisor: Prof. Matthew Faytak

- Conducting research on segmental annotation of speech sounds.
- Using Praat for speech acoustics extraction and analysis.
- Running statistical models such as GAMMs and visualizing findings in R.
- Authored paper summarizing findings, which was presented at academic conferences.

Research Assistant

UB Computational Linguistics Lab, University at Buffalo

Aug 2024 – Dec 2024

Supervisor: Prof. Cassandra Jacobs

- Testing and evaluating deep speech model.
- Running Montreal forced aligner on audio files.
- Statistical evaluation and visualization of various speech acoustics.
- Comparing the speech production of humans with the production of speech models.

SKILLS

Languages and dialects

Native Mandarin, Chinese Wu

Fluent English, Japanese

Other Latin (Working knowledge), Min and Hlai (Fieldwork)

Computing

Python, Haskell, SQL, R, JAVA
